

## AFRAID OF LONG-TERM COMMITMENT?

Although we will soon be parted, one of the best of my nine lives can be spent with you!

“Kitten Season” has arrived in the Capital District, flooding shelters with homeless mother cats, kittens and orphaned litters. Foster homes are needed to provide care until the kittens are old enough to be adopted – generally 8-10 weeks of age. Some kittens only need a few days of care, some a few weeks. A small, safe space and an hour a day is all you need to help. Food, supplies, medical care and a foster training manual are furnished. Kittens need people with **BIG HEARTS**, not big wallets. Each kitten you foster is **a life you save**.

***Join us today for a rewarding experience!***
